**New Factory Constructed in Taiwan to Manufacture Electronics-Related Equipment
–Doubling Equipment Manufacturing Capacity to Expand Equipment Business–**

Taiyo Nippon Sanso Corporation (President: Kenji Nagata; hereinafter “TNSC”), a Japanese industrial gas company in Nippon Sanso Holdings Group, has constructed a new factory in Hsinchu County, Taiwan at a site of Taiyo Nippon Sanso Engineering Taiwan, Inc. (Head Office: Hukou Township, Hsinchu County; Chairman: Ikunori Tomita; hereinafter “TNET”), a manufacturer of gas purifiers and gas cabinets, to expand our capacity to produce equipment for the electronics industry.

Full view of TNET's new factory

One of the key strategies in Nippon Sanso Holdings Corporation's medium-term management plan, “NS Vision 2026: Enabling the Future,” is “Total Electronics.” As one of the measures to this end, we have built a new factory at TNET to strengthen our capacity to manufacture equipment such as gas purifiers and gas cabinets in Taiwan for the electronics industry. The new factory is now complete, and an opening ceremony was held on November 8.

The new factory will increase TNET's total factory floor space, including the office, by approximately 2.5 times, and will double the company's equipment manufacturing capacity. TNET will continue to provide high-standard gas supply equipment and engineering services, particularly to the electronics industry.

Ribbon-cutting ceremony

From left to right, Kimihiro Umetsu (Chairman, Nippon Sanso Taiwan, Inc.), Tomoo Namiki (CEO, Taiyo Nippon Sanso Engineering Corporation), Kenji Nagata (President, Taiyo Nippon Sanso Corporation), Ikunori Tomita (Chairman, Taiyo Nippon Sanso Engineering Taiwan, Inc.), Toshiyuki Aida (Executive General Manager Electronics Unit, Taiyo Nippon Sanso Corporation), and Yasumichi Sakata (Executive Director, Taiyo Nippon Sanso Engineering Corporation)

[Corporate summary of both companies]

Taiyo Nippon Sanso Corporation

Business description: Manufacture and sale of various industrial gases such as oxygen, nitrogen, argon, LP gas, gas for medical uses, and specialty gases, manufacture and sale of welding equipment and materials, gas-related devices, and, air separation equipment, assembly, processing, inspection of electrical components, and equipment maintenance

Established: October 30, 1910

Incorporated: February 4, 2020

Capital: 1.5 billion yen

Shareholder: Nippon Sanso Holdings Corporation (Investment ratio: 100%)

Revenue: 420.4 billion yen*

*Note: This figure shows the revenue of Japan for Nippon Sanso Holdings Corporation in FYE2023

Taiyo Nippon Sanso Engineering Taiwan, Inc.

Business operations: Manufacture and sale of high-purity gas purification equipment (nitrogen, oxygen, argon, hydrogen, etc.), cylinder gas cabinets, valve manifold boxes, and exhaust gas detoxification equipment; plumbing (gas and chemical); and equipment maintenance

Established: March 1998

Shareholder: Taiyo Nippon Sanso Corporation, Taiyo Nippon Sanso Engineering Corporation, Nippon Sanso Taiwan, Inc.
