Taiyo Nippon Sanso to Sponsor “Wonderia YOKOHAMA Supported by Umios”
Digital Immersive Ocean Experiences Showcase the Web of Life

Taiyo Nippon Sanso Corporation (Headquarters: Shinagawa-ku, Tokyo; President: Kenji Nagata; hereinafter “TNSC”), the Japanese industrial gas business company of the Nippon Sanso Holdings Group, will sponsor Wonderia YOKOHAMA Supported by Umios (hereinafter “WonderiaYOKOHAMA”), an immersive attraction developed and operated by DeNA Co., Ltd. (Headquarters: Shibuya-ku, Tokyo; President & CEO: Shingo Okamura; hereinafter “DeNA”). The venue is scheduled to open on March 19, 2026, in the BASEGATE YOKOHAMA KANNAI complex. In Wonderia App, the official smartphone app for the facility, TNSC will introduce its coral reef conservation initiatives, providing an accessible learning opportunity that shows how the ocean supports and connects many forms of life.

1. Background to the Sponsorship

TNSC’s core products include oxygen, nitrogen, and argon. These industrial gases come from atmospheric air and support many fields, from healthcare to semiconductor manufacturing. As a company that works with air, a resource from nature, TNSC values the interconnected cycle of air, water, and land, and sees protecting the environment of the entire planet—including the oceans—as a key mission. One focus of these efforts is coral reef conservation, which helps protect marine biodiversity. Coral reefs, often called the “rainforests of the sea,” are home to many species. They also help absorb carbon dioxide and produce oxygen, making them essential to marine life. Today, reefs are experiencing major impacts from climate change and other forms of environmental damage. TNSC supports Wonderia YOKOHAMA’s goal of using digital, immersive experiences to inspire awareness of living things and nature. By linking this approach

with its coral conservation efforts, TNSC aims to highlight the value of coral reefs and the diversity of life in the ocean.

Effective April 1, 2026, TNSC will change its name to Nippon Sanso Corporation. This sponsorship is one of the initiatives planned under the new name to demonstrate the company's commitment to building a more sustainable society and share that message with a wide audience.

2. Facility Overview

Wonderia YOKOHAMA offers immersive experiences that spark a sense of wonder and discovery through vivid, realistic visuals. The space is made up of six themed zones, each with a different concept, where visitors can encounter forms of life and nature they might not normally experience in everyday life.

Opening date: Thursday, March 19, 2026

Location: BASEGATE YOKOHAMA KANNAI, Tower 3F-4F, 1-1-1 Minatocho, Naka-ku, Yokohama-shi, Kanagawa Prefecture
