

Nippon Sanso Holdings Group Procurement Policy

We are addressing the resolution of environmental and social issues based on its philosophy “Proactive. Innovative. Collaborative. Making life better through gas technology.”

We believe resolving these problems and realizing a sustainable society requires joint efforts with wide range of suppliers, and established the below procurement policy.

We will comply with this policy and contribute to realization of a sustainable society.

1. We will engage in procurement activities in a fair and sincere manner, with consideration to corporate ethics.
2. We will comply with laws, regulations and social norms.
3. We will endeavor to reduce environmental load and contribute to realization of a sustainable society that is considerate of human rights and workplace safety and security through procurement activities.
4. We will engage in fair transactions with our suppliers and engage in procurement activities under mutual understanding and trusting relationship.

This policy may be revised or abolished by the Board of Directors of the Company.
